49	33	25	9
50	33	25	9

Minimum Total Matches Needed to Qualify:

Minimum number of matches each competitor must shoot including regular scheduled matches and makeup matches.

Minimum Regularly Scheduled Matches Needed to Qualify:

This is the Minimum number of Regular Matches each competitor must shoot

Any Makeup matches DO NOT count as a Regular Scheduled match .

A Regular Match is any Match shot on a scheduled team match night.

A Regular Match must be shot against another team in competition for a team win.

Maximum Drops Allowed:

Drops are the shooters lowest scores for the season that will be removed if the shooter completes All Matches for the season, Regular or Makeup. If the shooter does not complete all matches then the following rule applies:

The drops are only removed from the end of the shooter's, matches shot.

Ex: Using the above chart: If 36 matches are scheduled; the shooter drops will be removed sequentially, as the shooter completes more then 30 matches. If the shooter complete 31 matches then the first lowest score will be removed.

If the shooter complete 32 matches then the two lowest scores will be removed. If 33 then three lowest and so on, until all scheduled matches are completed.

Final Averages: At Season end; Only the top 30 Matches shot will be used to calculate your Final Average Score
If you have less then 30 matches then your average is calculated on all the scores you have Completed
